The FreePatentsOnline.com database contains all patents published by the USPTO since number 4,000,000. New patents are published by the USPTO every Tuesday, and are automatically added to our database. Images may be viewed from the patent text pages. Your search terms will be highlighted on the full-text pages for ease of locating.

**Quick Search:**

The Quick Search is designed for those not familiar with the advanced syntax of USPTO searches. Simply enter your words, separated by commas, spaces, or "AND", and we will construct the correct query for you! All fields are optional. To use quoted phrases please use the expert search.

Search dates from:  to:  (mm/dd/yyyy)

Must contain the words:

Must *not* contain the words:

Or, jump to:

patent #
